

I Would Like To See Weather And Traffic Channel Stay On XM Satellite Radio I Have Xm Satellite Radio For My PC And I Listen To Weather And Traffic Most Of The Time I Don't Like To Be Told What I Can Or Cannot Listen To On The Local Channels Satellite Tv Has Local Channels Why Can't The Satellite Radio Can. I Don't Think NAB Has The Right To Be Banning The Weather And Traffic Channels It Helps Travelers Including The Truck Drivers If They Know Whats Going On Traffic Wise Then They Would Be Well Aware Of The Traffic Situation And Be Able To Pull Off To A Rest Area And Wait It Out. The NAB Thinks They Are Losing Popularity And Viewers So What They Are Doing Is Taking Away Most Important Thing Is For Travelers And Truck Drivers Such As My Husband, He Is A XM Satellite Radio Customer XM Radio Did A Good Job In Getting Weather And Traffic Channel Anow Now NAB Wants TO Take That Away From Satellite Radio Customers And Make Them Listen To The Local Station Which Is A Load Of Crap! Please We Would Like To See The Xm Radio Channel Stay On Xm Satellite Radio And Not Let NAB Get In Their Way!!!! And To Put A Stop To NAB In Their Tracks!!
